TRAUMA / TRANSPORT STRETCHER
with *CuVerro*[®] Side Rails

Copper is an intrinsic **bactericidal** element and CuVerro[®] copper alloy is the ONLY class of solid touch metal registered by the EPA to continuously kill bacteria.* CuVerro[®] kills more than 99.9% of the below listed bacteria within 2 hours and continues to kill 99% even after repeated contamination.

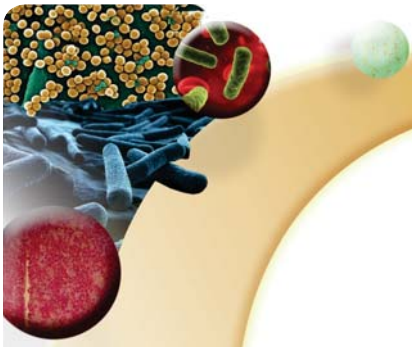

- MRSA • Enterobacter aerogenes • Pseudomonas aeruginosa • Escherichia coli O157:H7 • VRE • Staphylococcus aureus

 **CUVERRO**[®]
BACTERICIDAL COPPER SURFACES

Antimicrobial Copper **Cu⁺**

AL-83880

TRANSPORT STRETCHER

*Because stretcher side rails should **protect**, not infect.*

Now as an added protection in the ongoing battle with bacteria, Pedigo offers side rails made from **CuVerro[®] bactericidal copper alloy**.

Copper is an intrinsic bactericidal element and **CuVerro[®]** is the ONLY solid touch surface metal registered by the EPA to continuously kill bacteria¹ that cause infections and pose a risk to human health. Lab tests show more than 99.9% of bacteria¹ associated with disease and infection, including MRSA¹, are killed within two hours when in contact with copper. Bacteria will continue to be killed 24 hours a day, week after week, between regular cleanings.

GUARDIAN Package

- CuVerro[®] Side Rail
- Transport Stretcher
- Quick-Release™ O₂ Tank Holder
- 4" Blue Premium Mattress
- **is6** Instant Steer 6th Wheel Steering
- Fold Down IV pole
- IV Caddy

¹ CuVerro[®] alloys have proven effectiveness on MRSA (Methicillin-Resistant Staphylococcus aureus), Staphylococcus aureus, Enterobacter aerogenes, Pseudomonas aeruginosa, and Escherichia coli O157:H7 and VRE (Vancomycin-Resistant Enterococcus). CuVerro is a registered trademark of GBC Metals LLC, d/b/a Olin Brass.
