

AL-62002 Room Identification Flag System

Improve business efficiency • Improve employee workplace safety • Improve patient care & management

Standard 8" 6 Flag System
AL-62002

Patient Room Status ID Flag System

Room identification systems are made of durable powder coated aluminum and hold 6 flags per unit. Available in bright red, blue, orange, green, yellow and grey, our flags promote efficient operations by providing a clear visual signal for staff. These non-electrical units are quiet to operate and can rotate 180 degrees. This flag system comes with 8 inch flags that can be inverted to reverse their color order.

- Durable powder coated aluminum
- Quiet non-electrical movement
- 6 vibrant colors
- 180 degree rotation
- Invert flags to reverse color order
