Now as an added protection in the ongoing battle with bacteria, Pedigo offers the option of side rails made from **CuVerro® bactericidal copper alloy**.

Copper is an intrinsic bactericidal element and **CuVerro®** is the **ONLY** solid touch surface metal registered by the EPA to continuously kill bacteria¹ that cause infections and pose a risk to human health. Lab tests show more than 99.9% of bacteria¹ associated with disease and infection, including MRSA¹, are killed within two hours when in contact with copper. Bacteria will continue to be killed 24 hours a day, week after week, between regular cleanings.

Antimicrobial Copper **Cu⁺**

¹ CuVerro® alloys have proven effectiveness on MRSA (Methicillin-Resistant Staphylococcus aureus), Staphylococcus aureus, Enterobacter aerogenes, Pseudomonas aeruginosa, and Escherichia coli O157:H7 and VRE (Vancomycin-Resistant Enterococcus).
