## ORIGINAL

## The Original Cuff® Rehabilitation Weight

The Cuff® weight has been proven effective in hospitals for over 30 years. It contours to snugly fit the ankle, wrist... and even thigh. Its long velcro closure strap assures a secure and comfortable fit even during the most strenuous exercise program. It features heavy-duty materials and double-stitching throughout. They are color-coded, marked with both pounds and kilograms and grommets for hanging on any weight rack.

### Cuff® mobile weight rack

Heavy-duty steel rack helps to keep weights and accessories organized and out of the way when not in use. Holds up to 500 pounds on the 2-sided pegboard and still has capacity in the tray for more. 3-inch rubber ball-bearing wheels allow the rack to easily be moved to wherever it is needed (even over carpet). Ships UPS.
