

Ultralift® Mobile Lift

AL-87868, AL-87869 & AL-87870

Lifting and moving patients or residents has always been a challenge.

With the Ultralift Mobile Lift, you can lift, move, reposition, and turn your patients without strain to you or fear of injury for them.

Protect yourself and protect those you care for.

Ultralift offers an easy, powerful option and it is ideally suited for turning, gait training, rehabilitation, repositioning, and lifting, even from the floor.

Ultralift Mobile Lift

The Ultralift® Mobile Lift is one of the industry's safest, most user-friendly patient lifts on the market. Manufactured in North America, this lift includes a long list of standard features specifically engineered to optimize patient comfort and safety, as well as reduce caregiver injury. The Ultralift is also suitable for effective gait training and general rehabilitation activities.

Ultralift Mobile Lift Features

- 750 lb lifting capacity
- iQ Technology
- Power base widening
- Extra long boom
- Heavy duty casters
- Flat base option (2" -2.5")
- Integrated scale option
- True six-point spreader bar
- Extended lifting range of 56 inches
- 1 year limited warranty

Standard equipment includes a powered base-widening system, battery operation, durable construction, emergency stop switch, emergency up/down switch, and our true, six-point spreader bar.

Supplement your lift with ALCO's complete line of Slings.
